EXPERIENCE

Viha Digital Commerce

Magento Backend Developer | Oct 2022 – Feb 2025

- Advised and influenced clients on process direction/decisions by leveraging Magento best practices.
- Assessed business requirements and fulfilled them through effective design, development, debugging and implementation of Magento store.
- Actively mentored junior developers, improving their productivity and the quality of their work.
- Integrated payment gateways and fixed payment issue in custom extension
- Integrated and customized the Google Customer Reviews extension to collect customer feedback and display ratings on product pages and in Google search results, enhancing credibility and user trust.
- Developed and integrated a Helpdesk extension to provide efficient ticket management and streamline customer support within the store.

PROJECTS

shoeshub-store

- Designed and developed a responsive e-commerce website using HTML, CSS, and JavaScript.
- Implemented product listing pages with clean UI and smooth navigation.
- Added interactive features such as Add to Cart using JavaScript and DOM manipulation.
- Used browser local storage to store cart data for persistence across page refreshes.
- Enabled users to view, update, and remove items from the cart dynamically.

Qarotmen – E-Commerce

- Currently developing a full-stack e-commerce website using React.js for the front end and Node.js with Express.js for the backend.
